**Dear Hiring Manager,**

I am writing to express my keen interest in the **Senior Mobile Developer**. With a Bachelor's degree in Information Technology Engineering and four years of professional experience in mobile application development, I possess a strong foundation in building cross-platform applications. My experience spans the full mobile development lifecycle, from initial design and feature implementation to deployment and maintenance, consistently delivering dynamic and responsive applications that prioritize seamless user experiences.

Throughout my career, I've focused on creating user-friendly and innovative mobile experiences. This includes developing engaging custom UIs and animations, implementing secure payment gateways, and optimizing app performance. My experience spans collaborating with cross-functional teams, mentoring junior developers include mobile and backend(laravel), and contributing to project management activities. I am adept at leveraging mobile app's capabilities to build robust and scalable applications that meet user needs effectively.

I am particularly drawn to the opportunity to contribute as **Senior Mobile Developer**. I am confident that my skills and experience align well with your requirements and am eager to contribute to your team. I have attached my resume for your review and welcome the opportunity to discuss how I can make a significant impact.

**Best Regards,**

*Banha HUY*

## EDUCATION

- **Royal University of Phnom Penh**  
*Master of Information Technology Engineering*  
Start on March 2025
- **Royal University of Phnom Penh**  
*Bachelor of Information Technology Engineering*  
Certificate Completed in 2023
- **Hun Sen Phdau Chum High School**  
*Certificate completed in 2014*

## SKILL

- Advance Cross-platform mobile apps (Flutter & React Native)
- Backend API integration (Laravel)
- SQL, PostgreSQL
- Vibe Coding
- Payment gateway integration
- Third-party services (Firebase, OneSignal, etc.)
- Real-time
- Local database implementation, SQLite
- State management expertise
- Testing, debugging, and code quality
- UI/UX design fundamentals
- Agile workflow, team coordination, coordinate project

## LANGUAGE

- **KHMER** : Native
- **ENGLISH** : Good

## PROFILE

I am a Mobile Developer with 4 years of experience delivering high-quality, cross-platform applications using Flutter and React Native. I specialize in full-cycle development—from feature planning and responsive UI implementation to Firebase integration, app store deployment, and ongoing maintenance. My strengths include building custom UI designs with smooth animations, integrating payment gateways and third-party services, and optimizing performance for a seamless user experience. I also contribute to backend development using Laravel (PHP) and apply my JavaScript proficiency for dynamic front-end logic. Passionate about intuitive, scalable mobile solutions, I thrive in agile teams, mentoring peers and driving innovative product development.

## WORK EXPERIENCE

### Flutter Mobile App - Camemis Solution

*December 2021– September 2023*

- Develop and maintain custom mobile applications, delivering new features and ensuring reliability across platforms.
- Collaborate closely with API teams and designers throughout the development lifecycle to ensure seamless integration and user-focused experiences.
- Build Flutter solutions, including custom widgets, animations, Firebase integrations, and deep link configurations.
- Manage end-to-end app release processes, including updates, deployments, and publishing to the App Store and Google Play Store.
- Conduct client training, stay up-to-date with mobile development trends, and perform thorough testing across devices and operating systems.

### Flutter Developer - Codingate Technology

*October 2023 – February 2024*

- Developed high-performance, secure mobile applications with robust state management implementations.
- Integrated payment gateways and other key features to enhance application functionality.
- Created and maintained comprehensive technical documentation to support development and onboarding.
- Managed app updates, deployments to both release stores, and provided support for project management activities.
- Mentored interns and new team members, ensuring adherence to best coding practices through guidance and code reviews.
- Realtime project, WebSocket, push notifications, chat module

## **Project Coordinator - Codingate Technology**

*March 2024 – November 2024*

- Coordinated project schedules, meetings, and documentation, including reports, contracts, and progress records.
- Served as a communication bridge between team members, stakeholders, clients, and external advisors, ensuring clear alignment on goals and timelines.
- Tracked project progress, provided status updates, and proposed adjustments to keep initiatives on target.
- Supported resource allocation, procurement activities, and requirement gathering through direct client engagement.
- Collaborated with on-site and field teams to ensure smooth project execution and timely delivery.

## **Software Developer - National Institute of Public Health**

*November 2024 – August 2025*

- Designed and developed cross-platform mobile applications using Flutter and React Native to support public health operations and HRMS workflows.
- Built advanced system features and integrated secure Laravel-based APIs to enable reliable health data exchange across departments.
- Oversaw the full application lifecycle—from requirement analysis and UI/UX design to development, testing, deployment, and ongoing support.
- Published applications on both iOS and Android platforms, ensuring compliance with store policies and public health standards.
- Performed thorough QA testing, optimized performance for high-reliability environments, and demo training to multiple NIPH departments for effective system adoption.

## **Application Support Officer - Wing Bank**

*August 2025 – Present*

- Oversaw user-reported technical issues, providing front-line support and ensuring timely, effective resolution, including escalation management for critical cases.
- Performed root cause analysis on recurring issues and implemented long-term corrective actions to prevent future incidents.
- Maintained clear communication with users, stakeholders, and IT teams regarding system changes, ongoing issues, and resolution progress.
- Collaborated closely with development, QA, network, and infrastructure teams to ensure smooth application support and system stability.
- Coordinated with third-party vendors to manage external application support and ensured compliance with service level agreements (SLAs).
